

## INSTRUCTION

### **Education for English Learners**

The Superintendent and El Dorado County Board of Education (Board) intend to provide English learners with challenging curriculum and instruction that develop proficiency in English while facilitating student achievement in (EDCOE) regular course of study. English learners shall be provided English language development instruction targeted to their English proficiency level and aligned with state content standards. The EDCOE program shall be based on sound instructional theory and shall be adequately supported so that English learners can achieve results at the same academic level as their English-proficient peers in the regular course of study.

The Superintendent or designee shall ensure that all staff employed to teach English learners possess the appropriate authorization from the Commission on Teacher Credentialing.

The Superintendent encourages staff to exchange information with staff in other county offices of education about programs, options and strategies for English learners that succeed under various demographic conditions.

The Superintendent or designee shall maintain procedures which provide for the accurate identification of English learners and an assessment of their proficiency and needs in the areas of listening, speaking, reading, and writing in English. Once identified as an English learner, a student shall be annually assessed for language proficiency until he/she is reclassified based on criteria specified in administrative regulation.

EDCOE shall identify in its local control and accountability plan (LCAP) goals and specific actions and services to enhance student engagement, academic achievement, and other outcomes for English learners.

EDCOE shall provide effective professional development to teachers (including teachers in classroom settings that are not the settings of language instruction educational programs), administrators, and other school or community-based organization personnel to improve the instruction and assessment of English learners and enhance staff's ability to understand and use curricula, assessment, and instructional strategies for English learners. Such professional development shall be of sufficient intensity and duration to produce a positive and lasting impact on teachers' performance in the classroom.

At the beginning of each school year or upon a student's enrollment, parents/guardians shall be provided information on the types of language acquisition programs available to students enrolled in the district, including, but not limited to, a description of each program.

#### Type of Instruction

EDCOE shall offer English learners a structured English immersion program to ensure that English learners have access to the core academic content standards, including the English language development standards, and become proficient in English. In the structured English immersion program, nearly all of the classroom instruction shall be provided in English, but with the curriculum and presentation designed for students who are learning English.

For the purpose of determining the amount of instruction to be conducted in English in the structured English immersion program, "nearly all" means that all classroom instruction shall be conducted in English except for clarification, explanation, and support as needed.

In establishing the EDCOE's language acquisition programs, the Superintendent or designee shall consult with parents/guardians and the community during the LCAP development process. He/she shall also consult with administrators, teachers, and other personnel with appropriate authorizations and experience in establishing a language acquisition program.

Language acquisition programs are educational programs that are designed to ensure English acquisition as rapidly and as effectively as possible and that provide instruction to students on the state-adopted academic content standards, including the English language development standards. The language acquisition programs provided to students shall be informed by research and shall lead to grade-level proficiency and academic achievement in both English and another language.

When an English learner has acquired a reasonable level of English proficiency as measured by any of the state-designated assessments approved by the California Department of Education or any locally developed assessments and using other criteria developed by the county office of education, he/she shall be transferred from a structured English immersion classroom to an English language mainstream classroom in which the instruction is "overwhelmingly" in English.

When an English learner is determined pursuant to state and EDCOE reclassification criteria to have acquired a reasonable level of English proficiency pursuant to Education Code 313 and 52164.6, or upon request by the student's parent/guardian, the student shall be transferred from a language acquisition program into an English language mainstream classroom.

English learners' academic achievement in English language arts, mathematics, science, and any additional subject required by law shall be assessed using the California Assessment of Student Performance and Progress. As necessary, the test shall be administered with testing variations in accordance with 5 CCR 853.5 and 853.7. English learners who are in their first 12 months of attending a school in the United States shall be exempted from taking the English language arts assessment to the extent allowed by federal law.

#### Parental Exception Waivers

At any time during the school year, the parent/guardian of an English learner may have his/her child moved into an English language mainstream program.

Parent/guardian requests for waivers under Education Code 305 regarding placement in a sheltered English immersion program shall be granted in accordance with law and administrative regulation.

If the Superintendent or designee denies the waiver request, he/she shall provide a written justification to the parent/guardian describing the reasons for the denial.

#### Program Evaluation

To evaluate the effectiveness of the district's educational program for English learners, the Superintendent or designee shall report to the Board, at least annually, regarding:

1. Progress of English learners towards proficiency in English
2. The number and percentage of English learners reclassified as fluent English proficient

3. The number and percentage of English learners who are or are at risk of being classified as long-term English learners in accordance with Education Code 313.1
4. The achievement of English learners on standards-based tests in core curricular areas
5. Progress toward any other goals for English learners identified in EDCOE LCAPs.
6. A comparison of current data with data from at least the previous year.

The Superintendent or designee also shall provide the Board with regular reports from EDCOE English learner advisory committees.

The Superintendent or designee shall encourage parent/guardian and community involvement in the development and evaluation of programs for English learners.
