Updated List of District Adopted Texts (Accessed by COE Programs)

The Special Services Department of the El Dorado County Office of Education (EDCOE) provides instructional programs for students with low incidence disabilities on the Western Slope of El Dorado County. While all placement decisions are individual, most students who fall into these disability categories are served exclusively by EDCOE and students with less severe disabilities are served by the districts of residence. Low Incidence Disabilities served through EDCOE include:

- Severe Intellectual Disabilities
- Severe Physical and other Health Impairments
- Communication Disabilities
- Visual Impairments
- Deaf/Hard of Hearing
- Serious Emotional Disturbances
- Autism
- Severe Multiple Impairments
- Traumatic Brain Injuries

The EDCOE recently adopted a comprehensive curricula to be used in our programs for students with moderate to severe disabilities that is aligned to Common Core Standards. The following common core aligned curricula are used in our moderate to severe classrooms:

- Unique Learning System
- AbleNet
- ReThink

The classes for our students are on district campuses throughout the county. When approved textbooks are the appropriate instructional materials, they are either provided by the district which houses our program or we purchase sufficient textbooks. In this way, we are always using the same materials as the general education students on that campus. Textbooks are always provided to students on a 1:1 basis.
