Who attends SELPA Trainings?

How will this impact your practice?

Have a clearer understanding of what some students may be going through and how they perceive their environment.

It helped me start to change my mind set about behavior - looking at the functions of behavior and not taking a student's behavior so personally.

I'll be writing much better goals in the future.

I will know what to look for in my struggling readers to identify their needs.

I immediately applied several strategies the day after the training and had a much smoother day in my class than I had been having.

Testimonials

Lena and Kathy are always so prepared and informative. I will practice these skills especially rational detachment during an IEP meeting.

Thank you, Daina! I appreciate how clearly you presented the information. The resources are amazing!!!

Great!! One of the best trainings I've been to. Useful and engaging.

Overall I thought I got quite a few ideas to apply in the classroom. The prior experience of the presenter was most helpful.

Great info, presented in an easily digestible way. Great job. =)
