

## LOVE LEARN LEAD

Dear ,

Two BIG EVENTS happen Monday. First, The 17th Annual GOLF Tournament tees off for the kids at Presentation. Thank you to all of our incredible volunteers and generous sponsors for building the base for this event. Thank you to all of the golfers and brunch attendees for your time and support. **A very special and warm Thank You to Melissa Vaio for stepping in and chairing this important event.**

What do these events accomplish? On Monday, our kids will walk into completely new classrooms, because of the success of our Imagine Event. You give, they get. **Thank you to Tracy Walthard** for a huge logistical effort in making this happen for us. Classrooms will remain locked and closed until 8:10 am. We welcome you to join your kids for the BIG REVEAL.

[Conferences](#) are this week. We look forward to seeing you back to learn more about the hard work your kids and teachers have done together this year. Remember, **Wednesday is an early release day.** If you have not already signed up for a conference, please do so now by [clicking here](#).

Below, we have shared our **Important Dates for 2017/18**. We always do our best to make calendar decisions that are in the best interest of the kids, but please note that some dates may be subject to change, due to unforeseen conflicts.

See you Monday,

# Here's What's Happening!

- 5/1 - 17th Annual Presentation Golf Tournament**
  - 5/3 - Crowning of Mary Ceremony (Dress Uniform Day)**
  - 5/3-5/5 - Conferences (No School for Kids - *Minimum Day 5/3*)**

**2017 Spring Fund-A-Need**

# Solar

**2013-2016** PLANTED OVER 85 TREES

**2016** LOW-WATER PLANTS THROUGHOUT CAMPUS, GRASS REMOVED

**2016** INSTALLED LOW ENERGY HVAC

**2016** BOTTLE REFILL STATIONS (NO PLASTIC WATER BOTTLES)

**2017** INSTALLING SOLAR POWER

To further our school's commitment to sustainability we need your help. Twenty years ago we operated out of the Sonoma Community Center where every day we would "build" the school, setting up classrooms in the morning and taking them down in the afternoon to accommodate the next user. Today we enjoy a modern, safe, bright campus thanks to the continuous, generous support of our school families. As we continue to be a socially responsible leader in education in Sonoma Valley, we are thrilled to add solar to our commitment this summer.

The Presentation School is installing a full solar power system that will reduce fixed costs, provide full energy independence and reinforce our mission goal of social responsible leadership. The benefits of this system include:

- Saving money:** Installing solar significantly reduces our school's electricity bill, allowing those dollars to be invested in furthering our children's education.
- Creating educational opportunities:** Students can see first hand how sunlight can be converted into energy. Solar can be integrated into our math, science and technology curriculum further building our STEM programs.
- Social Responsibility:** As a renewable substitute for fossil fuels, solar is one of the biggest changes we can make in our communities for a cleaner earth.

As we complete our first two decades, we are reminded of all the steps, large and small, that have made this school exemplary. Thank you for supporting one more step in making The Presentation School a 21st Century leader in education.

# Sonoma S.T.E.A.M. Inventing Camps

SCIENCE, TECHNOLOGY, ENGINEERING, ART, MATHEMATICS

## TOY INVENTING CAMP

Kids will learn what it takes to be an actual toy inventor. We will brainstorm, sketch, design and engineer working prototypes. We will use S.T.E.A.M (science, technology, engineering, art, mathematics) curriculum to build using recycled materials, LED lights, batteries, motors, magnets and more. Class curriculum changes in every toy workshop/camp so it's great for repeating toy inventors.

Camp Dates: June 12-16 & July 10-14 Time: 9am-12pm

June 26-30, July 17-21 Time: 12:30-3:30

## INDUSTRIAL DESIGN MAKERS CAMP

Kids will be challenged with projects in stain glass, leather, metal, wood, plastic, resin, and many more. Kids will be introduced to cutting, grinding, and soldering glass. We will focus on safety in using industrial tools and create beautiful works of art. This class is never the same so kids who love to create will always be inspired with new materials.

Camp Dates: June 12-16 & July 10-14 Time: 12:30-3:30

June 26-30, July 17-21 Time: 9am-12pm

**THE PRESENTATION SCHOOL: 2087 Broadway, Sonoma, CA 95476**
